Separate paging is given to this Part in order that it may be filed as a separate compilation

### PART III—SECTION 2

#### Notifications and Notices issued by the Patent Office relating to Patents and Designs

##### THE PATENT OFFICE Patents and Designs

##### CORRIGENDA

Calcutta, the 24th August 1957

In the Gazette of India, Part III, Section 2, dated 22nd June 1957.

In page 150, column 1, under the heading "Applications Accepted".

for No. "53595" read No. "58595".

In the Gazette of India, Part III, Section 2, dated 20th July 1957—

In page 185, column 2, under the heading "Applications Accepted"—

Against No. 56297—

for "tube" read "tubes"

Against No. 56336—

for "Cynamid" read "Cyanamid".

In page 186, column 1, under the heading "Applications Accepted"—

Against No. 56446—

for "1-N,N-bis-aryl-methyl-amino)" read "1-(N,N-bis-aryl-methyl-amino)".

In column 2, under the heading "Applications Accepted"—

Against No. 56962—

for "isotheramally" read "isothermally".

In page 188, column 1, under the heading "Applications Accepted".

Against No. 59444—

for "C-2943" read "2943".

Against No. 59512—

for "cauging" read "gauging".

In page 191, column 1, under the heading "Name Index for applicants for Patents for the month of June 1957"—

for "Market" read "Markt".

In page 192, column 2, under the heading "Name Index for applicants for Patents for the month of June 1957"—

for "Wuertt" read "Wurtt".

##### Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

8th August 1957

61378. O. W. Burke Jr. Conjunctive polymers. (23rd April 1957).

61379. O. W. Burke Jr. Polymerization process. (23rd April 1957).

61380. O. W. Burke Jr. Polymerization process. (23rd April 1957).

61381. O. W. Burke Jr. Continuous polymerization process and apparatus. (23rd April 1957).  
61382. O. W. Burke Jr. Polymerization process. (23rd April 1957).  
61383. N. V. De Bataafsche Petroleum Maatschappij. Process for the simultaneous cooling and purification of hot gases.  
61384. Rodi & Wienerberger Aktiengesellschaft. Expanding link bracelet.  
61385. Farbenfabriken Bayer Aktiengesellschaft. Wrapping foils of high molecular thermoplastic polycarbonates. (3rd May 1957).  
61386. Esso Research and Engineering Company. Well logging method.  
61387. Union Carbide Corporation. Gas shielded metal arc welding torch.  
61388. Union Carbide Corporation. Welding wire feed.  
61389. Institut fur Warmetechnik und Automatisierung der Silikathuttenindustrie (WT 1). Improvements in or relating to automatic control in Metallurgical Industry.  
61390. Institut fur Warmetechnik und Automatisierung der Silikathuttenindustrie (WT-1). Automatic control in Metallurgical Industry.  
61391. VEB Maschinenfabrik Polysius. Sledge hammer mill.  
61392. Veb Dampferzeuger. Method of and equipment for operation of steam generator plants.  
61393. Bergische Stahl-Industrie and Indugas Gesellschaft fur industrielle Gasverwendung m.b.H. Improvements relating to the decarburisation of cast-iron. (20th June 1957).  
61394. Standard Telephones and Cables Limited. Arrangements for locating defective regenerative repeaters for pulse code modulation systems. (14th September 1956).  
61395. Standard Telephones and Cables Limited. Improvements in or relating to automatic telecommunication exchanges. (21st December 1956).  
61396. Standard Telephones and Cables Limited. Marking process for objects made of polythene or similar material. (16th January 1957).  
61397. Wilhelm Kolb. A bracelet for wrist-watches. [Addition to No. 55825].  
61398. Ciba Limited. Process for the manufacture of n-heterocyclic compounds.  
61399. Ciba Limited. Process for the manufacture of aromatic substances.  
61400. Ciba Limited. Process for the manufacture of pyridine compounds.

9th August 1957

61401. Rohm & Haas Company. Fibrous prod method of making same.

61402. Rohm & Haas Company. Fibrous products and preparation thereof.

61403. Rohm & Haas Company. Non-woven fibrous product and method of making same.

61404. American Cyanamid Company. Cellulosic articles containing neomycin.

61405. Union Carbide Corporation. Magnetic powder dispenser. (31st August 1956). [Addition to No. 57140].

61406. The Goodyear Tire & Rubber Company. Improvements in disc type brake with load equalizing pressure applying members.

61407. National Malleable and Steel Castings Company. Improvements in or relating to a car coupler.

61408. National Malleable and Steel Castings Company. Improvements in or relating to car coupler.

61409. National Malleable and Steel Castings Company. Improvements in or relating to car coupler.

61410. Blackwoods India Limited. Filing cabinets.

61411. Bayerische Motoren Werke Aktiengesellschaft. Wheel suspension and shock absorption specially for small motorcars.

61412. Svenska Aktiebolaget Bromsregulator. Improvements in or relating to vehicle vacuum brake systems.

61413. Dr. R. S. Dubey and Walchandnagar Industries Limited. Improvements in or relating to the refining of waxes.

61414. Crompton Parkinson Limited. Improvements relating to the electric arc welding of studs and similar bodies. (10th August 1956).

61415. Societe Rhodiaceta. Continuous process for the esterification of cellolose in homogeneous phase. (27th June 1957).

61416. Joh. A. Benckiser GmbH Chemische Fabrik. Process for the production of therapeutically valuable compounds.

61417. Yuasa Battery Company Limited. Electric storage cell or battery positive plate.

61418. Ciba Limited. Process for dyeing polyhydroxylated materials.

61419. Ciba Limited. Process for dyeing of printing polyhydroxylated materials and preparations therefor.

61420. Ciba Limited. A process for the fractional distillation of inorganic halides.

61421. Ciba Limited. New complex metal compounds of monoazo-dyestuffs their manufacture and use.

61422. Ciba Limited. Manufacture of esters.

61423. Ciba Limited. Manufacture of new esters.

10th August 1957

61424. B. B. Satardekar. Improved device for making Sev, and the like.

61425. United Kingdom Atomic Energy Authority. Improvements in or relating to the electronic valve D.C. trigger circuits. (16th August 1956).

61426. N. V. De Bataafsche Petroleum Maatschappij. Process for the removal of soot from suspensions thereof in water.

12th August 1957

61427. The General Electric Company Limited. Improvements in or relating to Electric Switching or Selecting Devices. (16th August 1956).

61428. General Electric Company Limited. Improvements in or relating to electromagnetic waveguide systems. (24th August 1956).

61429. Cyanamid Company. 9 $\alpha$ -halo-16 $\alpha$ , 17 $\alpha$ , 14-pregnene-3, 11, 20-trione and 21 esters.

61430. Teleless Telegraph Company Limited. Improvements in or relating to radio and like constructions. (22nd October 1956).

61431. Process for dyeing polyhydroxylated preparations suitable therefor.

61432. Process for the production of metallic by the electrolysis of melts.

61433. of a new Polypeptide (3rd October 1956).

61434. Friedrich Uhde G.m.b.H. Process for enriching and/or producing heavy water during the synthesis of ammonia using exchange of isotope between ammonia and hydrogen gas.

61435. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Process for preparing flexible tubes.

61436. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of N-Glycosides of 5-Fluorouracil.

61437. Mechanical Products Inc. Improvements in and relating to Electric Circuit Breakers.

61438. R. D. Garg. Improvements in or relating to manufacture of cadmium sulphide.

13th August 1957

61439. Council of Scientific and Industrial Research. Preparation of 2-hydroxy and 2-chlorothiazoles containing phenolic residues in position 4. [Divisional date 16th November 1956].

61440. Imperial Chemical Industries Limited. Improvements in or relating to the continuous production of liquid explosive nitric esters.

61441. Imperial Chemical Industries Limited. Improved anodes for electrolytic cells. (15th August 1956).

61442. The Dow Chemical Company. Composition for the control of gastro-intestinal parasites in animals and method of using same.

61443. Union Carbide Corporation. Pinch valves. (4th September 1956).

61444. M. G. Mackeurtan. Improvements in or relating to the manufacture of paper pulp. (24th August 1956).

61445. Caterpillar Tractor Co. Hinge connections for tractor tracks.

61446. Olin Mathieson Chemical Corporation. Phenothiazine compounds.

61447. Zeiss Ikon Aktiengesellschaft. Improvements in or relating to photographic cameras. (20th June 1957).

61448. Carl Still and Rochling'sche Eisen-Und Stahlwerke G.m.b.H. Improvements in or relating to methods of producing blast-furnace coke from moist finely ground coal mixtures in batteries of self-feeding coke ovens and machines for carrying such methods.

61449. Satya Narayan Poddar. Improvements in or relating to bobbins.

61450. The Metal Box Company Limited. Improvements in or relating to sheet metal containers. (28th January 1957).

61451. Algemene Kunstzijde Unie N.V. A process for the production of artificial threads, bands, films and like products from viscose.

61452. R. A. Lister & Company Limited. Improvements in or relating to compression-ignition engines and fuel injectors therefor. (23rd May 1957).

61453. Kabushiki Kaisha Ishikawa Seissakusho. Improvements in or relating to metallic carding engines.

61454. Ciba Limited. Process for dyeing polyhydroxylated materials and preparations therefor.

61455. Ciba Limited. New phthalocyanine dyestuffs, their manufacture and use.

61456. Ciba Limited. Process for the manufacture of acylamino-carboxylic acid amides.

61457. Ciba Limited. A new antibiotic and process for its manufacture.

61458. Ciba Limited. New benzimidazoles and process for their manufacture.

61459. G. Nebel. Continuously operating centrifuge.

61460. Vereinigte Oesterreichische Eisen-Und Stahlwerke Aktiengesellschaft. Bearing alloys.

61461. Fiat Societa Per Azioni. Device for transferring a liquid from a stationary pipe of passages machined inside a rotating shaft.

61462. Fiat Societa Per Azioni. Centrifugal filter, particularly for lubrication oil of internal combustion engines.

61463. Fiat Societa Per Azioni. Internal combustion engine flywheel provided with engine lubrication oil centrifugal filter.

14th August 1957

61464. Merck & Co. Inc. Method for producing antibiotics. [Divisional date 7th April 1956].

61465. Svenska Aktiebolaget bromsregulator. Improvements in or relating to railway brake setting mechanism.

61466. Cilag Limited. Novel basic esters, their acid salts, and quaternary salts.

61467. Connecticut Filter Corporation. Porous article and method of making same.

61468. Standard Telephones and Cables Limited. Intelligence storage equipment. (30th August 1956).

#### Alteration of Date

56693. The claim to priority date 4th March 1955 has been abandoned and the application dated as of 2nd March 1956, the date of filing in India.

58826. Ante-dated to 9th February 1956 under Section 5 of the Act.

60110. Ante-dated to 11th September 1956 under Section 5 of the Act.

#### Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta, in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

55803. W. Wild. Method, apparatus and chemical pack for recovering progesterone metabolites, especially pregnanediol, from the urine of a woman. Accepted on 12th August 1957.

Women, conception-free days determining apparatus for INDICATING Ele.

55830. R. A. Edmonds. Improvements in or relating to Wind Motors. Accepted on 13th August 1957.

Comprising a rotor with shrouded vanes and mounted on vertical shaft, with plane of rotor horizontal, and deflectors of height greater than axial length of each vane and extending beyond top and bottom planes of rotor, for intercepting and directing wind against the vanes.

56505. California Research Corporation. Compounded Hydrocarbon Fuels. Accepted on 8th August 1957.

Incorporating copolymer obtained by copolymerization of (1) a compound containing ethylenic linkage and 8 to 30 aliphatic carbon atoms, and (2) a compound selected from the group consisting of  $\alpha$ - $\beta$  unsaturated dicarboxylic acids and anhydrides.

56508. V. K. Govinda Menon. Improved type of clamps for use on stranded conductors. Accepted on 9th August 1957.

Grooves in which the conductors are to be located formed with a fluted cross section which forms exactly the counter-part of the fluted cross-section of the stranded conductors with which the clamp is intended to be used.

56510. Dronsfield Brothers Limited and S. W. Dronsfield. Improvements in camber grinding machines. (18th February 1955). Accepted on 9th August 1957.

Comprises machine bed, grinding head mounted on a longitudinally sliding carriage, a cam to adjust transversely the grinding head and rack and pinion drive for the cam.

56512. Socony Mobil Oil Company, Inc. Grease Composition and process of preparing the same. Accepted on 8th August 1957.

Comprising oil and mixture of calcium soaps of 10—60 per cent of acetic acid; 10—80 per cent of caprylic and 2—75 per cent of stearic acid by wt.

56549. A. L. Cohen and L. H. S. Cohen. Mobile hoists or cranes. (15th February 1955). Accepted on 13th August 1957.

Comprises a two stage hydraulic pump to supply fluid under pressure to a ram adapted to operate an arm pivotally mounted on a column and means to relieve the pressure so as to permit the arm to be lowered.

56566. S. P. Joshi. Improvements in or relating to seals and to methods of sealing. Accepted on 14th August 1957.

Flexible stud of a lead portion having sloping sides, a base portion which is flat, concave or convex at its top and bottom and a neck portion between the head portion and base portions, but narrower than both.

56678. Capt. A. N. D'Silva. Double-Action Piston type Self-Filler for Fountain Pens. Accepted on 13th August 1957.

Ink sucked through conventional duct while piston is pulled out and through another duct in the feeder and the barrel when the piston is pushed in.

56693. The British Petroleum Company Limited. Improvements relating to blends of diesters and complex esters suitable for use as lubricants. Accepted on 14th August 1957.

The blend comprises a diester and a complex ester.

56765. S. L. N. Iyer. Portable Smokeless Choola. Accepted on 14th August 1957.

Smokeless choola comprising a main fuel chamber fitted with circular grate rotatable about its centre with a projecting lip over about a quarter of its circumference.

56907. Simon-Carves Limited. Improvements relating to demagnetising apparatus. Accepted on 13th August 1957.

Consists of pole-pieces so shaped as to cause the field strength between them to diminish gradually.

56910. Plodari Francesco Prima Fabbrica Italiana Serrature Night latches. Accepted on 12th August 1957.

Providing within door knob locking device comprising pushbutton and toothed member co-operating with toothed wheel to rotate coaxial plate preventing rotation thereof.

57142. American Cyanamid Company. Substituted haloacetyl piperazines and method of preparing same. Accepted on 14th August 1957.

Reacting N-substituted piperazine with mono or dihaloacetyl chloride.

57211. Ciba Limited. Process for the manufacture of Reservic Acid and its Esters and compounds similar thereto. Accepted on 8th August 1957.

Treating 3-isoreserpic acid salt with dehydrating agent and splitting the lactone ring thus formed with hydrolyzing or alcoholizing agent.

57266. Sulekha Works Ltd. Cleansing solutions for fountain pens, Stylo-Pens and like writing instruments. Accepted on 9th August 1957.

Comprising mineral acids like hydrochloric acid, organic acid like oxalic acid, organic solvents like ethyl alcohol.

57578. The Strong Electric Corporation. Arc Lamp. Accepted on 14th August 1957.  
*Provided with a pair of electrodes adapted to advanced to compensate for burning and arrangement for directing an air stream.*

57672. Ciba Limited Long-acting orally administrable solid pharmaceutical preparations. Accepted on 14th August 1957.  
*Comprising inner core having therapeutically active substance intimately interspersed throughout a solid mass of gastro-intestinally non-absorbable material, and outer coating comprising a mixture of therapeutically active substance, excipients and binders.*

57740. Ciba Limited. A New antibiotic and process for its manufacture. Accepted on 14th August 1957.  
*Cultivating streptomyces A 7909 in a nutrient medium.*

57765. Imperial Chemical Industries Limited. Improvements in the production of copolymers of butadiene 1, 3 and methyl methacrylate by emulsion polymerisation, and pigmented dispersions thereof. (13th July 1955). Accepted on 13th August 1957.  
*Polymerising 50—72 per cent by wt. of methyl methacrylate and butadiene in presence 0.05 per cent by wt. of ionic emulsifying agent adding non-ionic emulsifying agent after 30 per cent of monomers are copolymerised.*

57766. British Nylon Spinners Limited. Improvements in or relating to the twisting of textile filaments. (19th July 1955). Accepted on 9th August 1957.  
*False twist imparted by twist tube having at least at one end of its internal surface composed of abrasive material having high co-efficient of friction.*

58048. The Wellcome Foundation Ltd. Method of forming Pyrazolo-(3, 4-d) pyrimidines. (10th August 1955). Accepted on 10th August 1957.  
*Reacting pyrazolo-3, 4-dicarboxamide with sodium hypochlorite and converting, if desired, one or both hydroxy groups to mercapto, alkyl-mercaptop, amino or alkyl amino groups.*

58088. E. Piermari. Improvements in tooth-brush. Accepted on 14th August 1957.  
*Characterised in that effective brushing surface formed by free tips of bristles is situated for more than one-third outside the surface joining the end parts of two curved bristle-carrying supports, irrespective of shape of said parts and the shape of brushing surface.*

58090. Ciba Limited. Quaternary N-substituted aminoalkyl-tricholoroisindolines pharmaceutical preparations containing them and process of making same. Accepted on 9th August 1957.  
*Treating N-(substituted-aminoalkyl)-trichloroisindoline with quaternizing agent.*

58137. Vereinigte Aluminium-Werke Aktiengesellschaft. Method of producing a durable and very high lustre on articles made of aluminium or aluminium alloys and other metals or metal alloys. Accepted on 8th August 1957.  
*Comprising the steps of dry polishing with abrasives then pickling in solution, thereafter finish-polishing the pickled articles with dispersions of polishing agents in liquid media, and finally providing a transparent protective film.*

58155. The British Tabulating Machine Company Limited. Improvements in or relating to electronic calculating apparatus. (19th August 1955). Accepted on 8th August 1957.  
*Including storage devices, means interconnecting two of them, means for selecting to operate interconnecting means, means for entering dividend value in storage devices means for subtracting, means for entering a partial remainder and means for making a single digit entry in a third of the storage devices.*

58188. The British Drug Houses Limited. Preparation of Alkoxy carbamido sulphonamido thiadiazoles. Accepted on 14th August 1957.  
*Treating 2-amino-5-mercaptop-1:3:4-thiadiazole with alkyl chlorformate in presence of hydrogen chloride abstractor, treating resulting compound with chlorine gas and treating sulphonchloride obtained with liquid ammonia.*

58385. Courtaulds Limited. Improvements in and relating to polyacrylonitrile solutions. (16th September 1955). Accepted on 14th August 1957.  
*Dissolving acrylonitrile together with other copolymerisable compounds, in concentrated solution of inorganic thiocyanate and polymerising the monomer in presence of non-oxidising polymerisation catalyst forming free radicals.*

58432. Ab Tudor. Accumulator plate. Accepted on 14th August 1957.  
*Comprising pencils of active material mounted on metallic spines, each of the pencils being enclosed in a tube of electrolyte resistant insulating material which is permeable to the electrolyte, the covering having an oval cross-section and being so disposed that the largest diameter of the oval cross-section is parallel to the plane of the plate.*

58449. Olin Mathieson Chemical Corporation. Production of Tetracycline. Accepted on 9th August 1957.  
*Growing mutant streptomyces sp. 3721 or 3722 in fermentation medium.*

58598. Vdo Tachometer Werke Adolf Schindling G.m.b.H. Warning contact device for tachographs. Accepted on 12th August 1957.  
*Having fixed contact rails and parallel to them adjustable contact rails which can be set at prescribed speed.*

58826. Dronfield Brothers Limited and S. W. Dronfield. Improvements in or relating to camber grinding machines. (Divisional date 9th February 1956). Accepted on 9th August 1957.  
*Comprising a machine bed, carriage slidable on bed and a rotatable cam like control mounted on the carriage.*

58855. Titan Co. A/S. Oxidation of trivalent titanium compounds contained in solid titaniferous materials. Accepted on 10th August 1957.  
*Admixing finely divided material with water or steam to form wet mass, exposing same to oxidizing gas at below 100°C.*

59008. J. N. Masci. Improvements in or relating to sterilization of free flowing powders. Accepted on 12th August 1957.  
*Treating with at least 0.5 per cent of lower epoxide and least 0.05 per cent of water at 70—120°F for 5 hours to 15 days.*

59022. Infilco Incorporated. Apparatus and process for continuous ion exchange. Accepted on 14th August 1957.  
*Maintaining granular ion exchange material as suspension in liquid under treatment in treating zone, diffusing air into said suspension and withdrawing treated liquid from circulating suspension.*

59164. Metallurgical Chemists Limited. Apparatus for distributing dressings on vegetation. (19th December 1955). Accepted on 13th August 1957.  
*Each nozzle contains an electrode which is charged with unipolar electric potential.*

59279. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Streptomycin D-(pantothenic acid 4'-phosphate) and process for the manufacture of same. (11th January 1956). Accepted on 14th August 1957.  
*Treating aqueous solution or a mineral acid salt of streptomycin with D-pantothenic acid 4'-phosphate or alkali metal or alkaline earth metal salt thereof.*

59394. Dr. G. V. L. N. Murty and T. R. Ramaswami. A process for the preparation of a highly water-reactive form of iron. Accepted on 12th August 1957.  
*Electrolysing a bath of aqueous solution of ferrous salt bath which is maintained at pH 4—6, and made highly conducting by electrolytes such as sodium chloride and/or ammonium chloride.*

59412. P. C. Berend. Improvements in or relating to constructional elements. Accepted on 14th August 1957.

*Construction element comprising a right-angle L section, each flange containing a plurality of slots spaced along the entire length of the flange.*

59470. Maschinenfabrik Benninger A.-G. Improvements in or relating to a machine for treating rope—or ribbon-like goods and more particularly textile goods. Accepted on 14th August 1957.

*The container is a closed over-pressure tank and is provided with at least a guiding conduit for guiding the good to and away from this tank, a flow of sealing fluid being maintained in this conduit during operation.*

59550. Imperial Chemical Industries Limited. Improved vulcanisation process for rubber. (6th February 1956). Accepted on 14th August 1957.

*Incorporating an accelerator and sulphamic acid or its salts.*

59874. Combustion Engineering, Inc. A vertically disposed furnace. Accepted on 8th August 1957.

*Interior walls of furnace being lined with vertically disposed heat exchange tubes and a support framework secured to a fixed foundation and extending above the furnace.*

60071. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to methods of making grids with tautly stretched wires for use in electric discharge valves, and grids made by means of these methods. Accepted on 14th August 1957.

*Continuous grid wire is tautly wound on two continuous stay rods which are relatively spaced apart.*

60086. Fairbairn Lawson Combe Barbour Limited. Improvements in drafting devices for textile machines. (12th May 1956). Accepted on 14th August 1957.

*Comprising an endless apron passing over a smooth-surfaced plate so as to form a flat moving surface on which fibers are drafted.*

60110. Courtaulds Limited. Improvements in and relating to polyacrylonitrile solutions. (21st June 1956). (Addition to No. 58385). (Divisional date 11th September 1956). Accepted on 14th August 1957.

*Dissolving acrylonitrile together with other copolymerisable compound in a concentrated solution of thiocyanate and effecting polymerisation in the presence of a catalyst.*

60154. Riv Officine Di Villar Perosa Societa Per Azioni. Improvements in Oil-Tight rolling bearings. Accepted on 9th August 1957.

*With two seals consisting of metallic screen coupled to rubber diaphragm having two annular ridges or lips.*

#### Opposition Proceedings

(1)

The opposition entered by Azofen Private Limited to the grant of a patent on application No. 54132 made by J. R. Geigy A. G., as notified in Part III, Section 2, of the Gazette of India, dated 6th October 1956 has been allowed in part. A patent will be sealed subject to amendment of the specification.

(2)

The opposition entered by Fine Dyestuffs and Chemicals (India) Private Limited to the grant of a patent on application No. 54132 made by J. R. Geigy A.-G., as notified in Part III, Section 2, of the Gazette of India, dated 13th October 1956 has been allowed in part. A patent will be sealed subject to amendment of the specification.

#### Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from officer-in-Charge, Government of India, Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

53221. 53224. 53354. 53371. 53372. 53377. 53378. 53387. 53415. 53427. 53443. 53612. 53682. 53802. 53804. 53814. 53830. 53833. 54010. 54132. 54413. 54553. 54584. 54623. 54738. 54739. 54753. 54772. 54863. 54887. 54888. 54910. 54952. 55058. 55209. 55280. 55353. 55892. 55919. 55920. 56007. 56126. 56127. 56128. 57099.

#### Patents Sealed

#### Amendment Proceedings

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that John Wesley Stafford, Engineer, a Citizen of the U.S.A., of Wearimus Road, Hohokus, New Jersey, U.S.A., seek leave to amend the claims in the specification in respect of Patent No. 55280. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(2)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Chas. Pfizer & Co., Inc., a Corporation organized under the Laws of the State of Delaware, United States of America, of 11, Bartlett Street, Brooklyn, State of New York, United States of America seek leave to amend the description in the specification in respect of Patent Application No. 55738. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(3)

The amendment proposed by The Metal Goods Manufacturing Co. Ltd., in respect of Patent application No. 55422 as advertised in the Gazette of India, Part III, Section 2, dated the 4th May 1957 has been allowed.
